

PowerSchool Parent Tips

1. The url for Powerschool Parent Portal has changed. It is now <https://lpps.powerschool.com/public/>
2. When creating a new account, the password must be 8 characters long. Existing accounts should not require a password change upon logging in.
3. As the PowerSchool server address has changed, the mobile app may not connect. If this is the case, parents will need to delete and re-install the app for it to make a proper connection. Our district code for the app registration is "NQPT", however, the school search function within the app will work as well.
4. If a parent/student account needs a password reset, they should contact the school. This must be done by school staff.
